The new road law exempts boys under the age of eighteen from work on the public roads.

It is high time the Democrats around here should get off of dress parade and come down to hard work.

The people of Louisville have secured the annual encampment of the G. A. R. next year. It will be a great big thing for Louisville as there are upwards of a hundred thousand people who attend.

Some interesting news gives the news of the news this week. They cover the field and if there is anything worth knowing they are pretty apt to tell it. The news has the best corps of correspondents of any paper in the state.

The annual conference of the M. E. church, south will convene at Owensboro next week. It is time to add that the good people of that city will open wide their doors and extend a cordial greeting to all who may attend.

Mr. Henry Watterson's great address at Pittsburgh is only captured that A. K. L. is the man who did it. It is time to add that the good people of that city will open wide their doors and extend a cordial greeting to all who may attend.

CARL Richardson, the Democratic Candidate for County Clerk, is supporting the cause of the men that Bremerton's Breckinridge. He is the most energetic and thorough campaigner the party has ever had, mailed to its head mail. Carl will get there in good shape.

BRECKENRIDGE was defeated by Owensboro in the election. There was hardly any other conclusion to be reached. No man could have hoped to have succeeded under such circumstances or in the face of such an opposition. Breckinridge's opposition was not confined to his district alone, but it was all over the State, a thing which never occurred before. It is best for the members of the State that the nomination was not given to Breckinridge, but far as the man himself is concerned, it certainly sealed his fate.

PICKED UP.

Lonnie Glasscock over in the Forks is a beautiful home and farm. It is well improved, is under a high state of cultivation and produces equal to any of the river bottom farms. Lonnie is always at home to his friends and is glad to see them at any time. His wife and two arsons are old school-mates and he is taking a lively interest in Carl's election.

Cliff Pile is another substantial farmer and Democrat of Duncan's Valley. He is about as well fixed in the way of this world as any man in the State. He is not at all selfish either. He likes for the candidates to come around and it is his delight to entertain them. Judge Board, J. E. Monach, J. S. DeJernette and the News man were a very delightful night with him last week.

All Taylor, Rosetta's popular merchant, is growing fat and laying up something for a rainy day out of his business. He is not only a successful merchant but a good farmer and trader. He is now feeling \$1 head of hogs on his farm near Irvington. All deserves all the success he is getting out of this life.

Letters From The People.

BRECKENRIDGE, KY., Sept. 14, 1894.—EDITOR NEWS.—In your last issue, under the head of "Snap Shots From The People," B. F. Beard says: "Speaking of blankets, the same blanked I sold last year \$5.00 will sell this year for \$10.00. This is just what we will charge for blankets." I sold last year 100 pounds of wool for \$25. 100 pounds of wool is now worth \$14. Loss to me \$11. Ten men in Breckinridge county sell wool where one man buys a blanket. So you see ten men lose \$11, making \$110 and one man gains \$1, that is what the new tariff has done for the people.

THOMAS J. JOHNSON.

A Dismal Failure.

The Hawesville Plaindealer says: "There was provision enough prepared for the barbecue last Saturday to feed ten thousand people but less than three hundred dinner tickets were sold—so financially the dinner was a failure."

1,200 people were present, and everything passed off quietly; everybody seemed in a good humor. At the auction of meats, half a sheep sold for 50 cents, and quarter of beef for less than a dollar. The managers have not settled all the bills as yet, but they will bill exactly "what they are at." Major M. delivered a moving speech and all felt they paid for climbing the hill."

Democrats.

The voters of the Cloverport Magisterial District are hereby called to meet in the city hall of the city of Louisville on Saturday October 20th, at 1 o'clock p.m., at the City Hall, in Cloverport, Ky. All Democrats in the District are requested to be present.

THE COLORED TEACHERS INSTITUTE.

The Breckinridge County Teachers' Institute met at the colored E. church Monday 17th.

Institute called to order by the County Superintendent.

Devotional exercises conducted by Rev. Horton.

Prof. Wm. Payne was chosen conductor, and Miss L. E. McClellan, secretary.

The following teachers were present and answered to the roll call: J. A. Priester, Ed. Beard, Nettie B. Haynes, Alia M. Mitchell, W. H. Board, Mary M. Hayden, Charles Braxton, Marion Riley, Clinton Roberts, Prof. Wm. Payne, Morris E. Foster, Hattie Peay, J. G. Jones, Rachael Hester, Ila Miles, G. T. Cook and Sadie Miles.

SPRING, three farms, farming implements, stock, etc. Henry Garner will act as clerk of the sale.

Henry Garner, a Democratic candidate for legislator, was in town Monday.

He says the outlook for the ticket in his end of the county is good. Mr. Garner lives in a strong Republican precinct, Hindsville, but the Democrats always turn out and vote. His opponent, Mr. Dockey, lives at McDaniels and will get the colored teacher.

Mr. and Mrs. John Wimp came up from Irvington last Saturday to see Mr. S. P. Woolfolk.

Gene Woolfolk is not in the Golden State but in Dixie's land (Mississippi) attending school.

Mrs. Gus Warfield is still very sick of typhoid fever. So much of this miserable fever every where.

Mr. and Mrs. Morgan Richardson have come to town. Mr. and Mrs. Woolfolk and now she is a happy wife and queen of hearts in a pretty, western home.

"The way to a man's heart is down his throat," girls, and she is preferable to one who wishes to amend the Constitution and the Emperor's advice is well timed. Attention to culture affords the best way to cultivate the mind and heart. To be systematic at home and experienced cook are as elegant accomplishments as any of the fine arts and they should rank as such.

When the children drink bed water and eat much green fruit, or have the stomach ache or diarrhea from any cause, you needn't be alarmed about them. If you will get a 25c 50c bottle of Dr. Bell's Anti-Fix they will be at play in half hour after the first dose.

Tom Fairleigh came up from Paducah last Sunday to see his father who is still confined to his bed with rheumatism.

The Salem Association convened at Buck Grove Wednesday Sept. 19th, a good number from here will be in attendance each day.

Autumn Scenes.

Our hearts are filled with gladness
These bright September days;
When the brooks are clear and chilly,
And the hills are golden and haze.

The glee, the warmth, the gaiety,
Cling to the dying vines;
And round the stalks of ripening corn,
The morning-glory twines.

The autumn winds in whispering tones
Sing of the harvest home;
Or their strength abides the dawn
In grass and mattock vines.

The leaves, like falling stars, descend
From the bright fair sun; menads
Away over fields of shining stones
Over rough and rocky beds.

Give, give to me September;
When the hills are lost in haze;
When the sun is dim and sombre;
Through dreamy, autumn days.

J. R. ZIMMERMAN.

That Tired Feeling

A dangerous condition directly due to depleted or impure blood. It should not be allowed to continue, in its debility the system is especially liable to serious attacks of illness. Hood's Sanguine Pill is a safe and reliable medicine, and also for that weakness which prevails at the change of season, climate or life.

Hood's Pills are purely vegetable, carefully prepared from the best ingredients.

PROSPERITY IN THE SOUTH.

It is Brighter Than Any Other Section of the Country.

NO LIMIT TO ITS RESOURCES.

From all parts of the South comes excellent reports of material progress. The Southern corn crop is larger than ever before; the cotton crop is large and of fine quality. In Texas the latter is the largest that the market has ever seen. While cotton is cheap, it will not do to overlook the fact that six cents a pound for cotton nowadays is a very different thing from what it was a few years ago. People generally have not yet learned to take into consideration the fact that the most highly products of cotton are worth nearly ten cents a pound more, so that the farmer's six cents is really equivalent to eight cents.

The corn crop is so large that the South will this year have a surplus, in stead of being compelled to import corn for home consumption. The cotton for the Southern manufacturing industries, and her cotton mills in particular, is better than ever before in her history, and in every substantial and material element of business the general condition of the South is most encouraging and satisfactory.

The interest of Southern railroad interests in the re-organization of the Richmond Terminal system and the merging of the thirty or forty railroads comprising it into the new Southern Railway Company is nothing short of revolutionary. As affecting Southern business affairs of the South, it is of the greatest importance.

It means the substitution in the pivotal industry and dependence of the country of order in the place of chaos, and of stability and responsibility in the place of absolute irresponsibility. Never in the history of railroads was such hopeless and inefficient management as manifested in the administration of the thousand and one railroads of the South as has been.

The principal of the crop has been the most remarkable feature of the year, and has been well received. What we especially desire to say here upon this occasion, is, that American boys should study history.

—New York Sun.

A. Bailey, a well known citizen of Eugene, Oregon, says his wife has for years been troubled with chronic diarrhea and used many remedies with little relief until she tried Chamberlain's Cold, Cholera and diarrhea Remedy, which has cured her sound and well, and she has not had a relapse since. A. Bailey, 25 and 50 cent bottles for sale by A. K. Fisher, Cloverport, Ky., and Kincheloe & Board, Hardinsburg, Ky.

The new order of things is very different. The Southern Railway is the result of the practical obliteration of between thirty and forty corporations, the elimination of millions of fictitious valuations and unreasonable burdens, and it is the result of a place where a successful and vigorous railroad system founded upon modern and scientific economies and of the first efficiency. This has been accomplished by Mr. Samuel Spencer, in conformity with the general plan and purpose of the reorganization of the railroads of the South.

Mr. Spencer, in addition to being one of the first railroad men in the country, was specially equipped for the problem in hand by his intimate knowledge of southern railroad properties, and of those of the Terminal system in particular.

Besides, it is essential if anybody is to succeed in the railroad business to have a knowledge of the financial condition of railroad property.

the conduct of its business, even after such conditions as have so long prevailed, as to make its final charges and a very considerable sum.

Taken all in all, the business prospects of the South are, at the present moment, brighter than those of any other part of the country. It depends upon the people of the South themselves to make the most of the opportunities.

What they need is uninterrupted industry and a sound respect for law. If they have the good sense to abjure populism, and socialism, and anarchism, and see to it that the rights of property are observed in behalf of great and small, rich and poor, they can be as prosperous as they please. The South is especially well adapted to their resources, and with industry and honesty going hand in hand, there should be no limit to their development. Let them study the lesson that Texas has learned at such grievous expense and painful retardation.

Her Regan's Dogwood, which is not only a popular and cost account of dollars, and have put back her natural and reasonable development by at least as much as fifteen years. —N. Y. Sun.

If you are sick or weak, you should take Ayer's Cathartic Pills. They will cleanse the stomach, restore healthy action to the digestive organs, remove effete matter (the presence of which depresses the nerves and brain), and thus give speedy relief.

A Hero of Other Days.

We are of a forgetful generation. We cannot keep in our memory the name of one in a hundred, or even one in a thousand, of the marked characters of our age.

The two foregoing sentences have been written within view of a Texas paper, and the author of the first, a man of the order of the saddle which, over fifty years ago, belonged to the once famous War Santa Anna, and which was captured by his young pony American man, after he had unhorsed him in battle.

As we read about the lion-headed saddle in the Texas paper, we had this to say: "How could any man of the world could tell us all about Santa Anna, that former Mexican revolutionist, dictator, generalissimo, castle-stormer, seer, highness, conspirator, abductor, and exile of whose hoity-toity career our grandfathers used to tell stories of years of their war for the liberation of Texas? How many of us, in our ignorance, as about his foats of arms against the Emperor Iturbide, and afterward against the Spanish invaders, and subsequently against Bustamante and Guerrero, and next against Col. David Crockett, and Col. Bowie (of the knife) and Col. Travis, and the gallant general and friend Gen. Winfield Scott, and onward till the fall of the second Mexican empire?"

Nearly all correspondents write there is a wonderful improvement in tobacco since the rains commenced. Before rains a good deal of the tobacco was burning up and had to be cut, and if we do not have an early frost, tobacco will be in good condition and will be a good fertilizer to turn under in the spring. I have been in fifteen or twenty counties since the rains commenced, and in most of these counties there will be a good frost, and run your risk harrow over it—will be all that is necessary; it will afford good winter pasture and will be a good fertilizer to turn under in the spring. Some correspondents report, "never had better crops of corn or tobacco." I have reports to this office that the corn sent out from this office took the premiums at the fair where it was shown. Condition, 77.5; average compared with last year.

—Tobacco.

Patrons have improved very much since my report in July. In fact, in many places where there was no pasture at all, there is now fine grass, but we are beginning to want rains in most places. Drought, of extraordinary severity, combined with extreme heat, is the chief cause of the unusual low condition of pastures. —Per cent. 60.

—Harrow.

The principal part of the crop has been very short. Most crops are very short. The area of the crop is rather smaller than usual, as much of it was ruined by the frost and snow.

There seems to be a better demand for hogs than any other kind of live stock. I asked my correspondents as to the average quantity of hogs to be fed at fall. The per cent. is placed at 81.

—Cattle.

The average quantity of two-year-old cattle to be fed till fall is placed at 77.1 per cent.

—Cattle.

A very small number of counties report any clover seed this fall. The crop remains nearly an entire failure. Winter killing, frost damage and the principal trapping are rich and heavy; it was captured by Sam Houston in a horseback combat, while the bullets flew thick and fast around.

The recent war was the most romantic of the wars which our country has ever been involved. What we especially desire to say here upon this occasion, is, that American boys should study history.

Mouthly Crop Report.

Since my report of July 1st there have been few rains in the larger portions of the state, and the crops have not been favored than others. Reports from four counties state, "not enough rain to do much good." There is a much better feeling among the farmers. Both the corn and the tobacco crops have been very much benefited. The August report of the Bureau of Agriculture shows a decline in corn of nearly 30 points from July 1st to August 1st. In some localities the crop was injured beyond recovery, while in others, timely rains have improved the crops very much, and the indications now are that the crop will be raised in nearly 30 points from July 1st to August 1st.
